### **IMPORTANT NOTES (Please read carefully)**

- Please note that none of the services mentioned in our quotation have been booked and this proposal is subject to availability.
- If services are not available, we will endeavor to replace these by services of a similar standard. This may affect our quotation though depending on whether the alternatives are more or less expensive.
- The traveling times mentioned within this dossier are approximate durations. These times will vary according to weather, road, traffic or any other prevailing conditions.
- Day trains between metros have an air-conditioned `chair car'. This `chair car' compartment has reclining seats (like an aircraft). Snacks and meals are often included in the ticket.
- Overnight trains have berths in air-conditioned compartments. We usually book those compartments

which have only four beds in each compartment and two along the aisle, stacked vertically in two tiers (2AC). There is the added benefit of privacy curtains on the entrance to each compartment, as well as across each of the beds that run along the aisle. Fresh towels and bedding (linen, blanket and pillow) are provided at night. If these sleepers are not available then we book air-conditioned compartments where beds are stacked in three tiers (3AC)
